

CONTAINER INSPECTION

AIM

The course is specifically aimed at providing experienced people with the necessary techniques for inspecting offshore containers prior to shipment. The course covers the following areas:

- Current Legislation
- Example Documentation
- Shackle Inspection
- Marking of Lifting Equipment
- Container Structural Faults
- Wire Rope Sling Inspection

A short theory presentation will be take place but the emphasis on this course is practical examination. A certificate of attendance will be issued which aids in addressing the various legislative requirements placed upon employers to ensure their employees are competent. The course includes a handout for future reference.

LOCATION

The course is generally held at our Head Office at Harworth, however we are able to utilise other Certex sites around the country and also hold courses at your site if adequate facilities are available.

DURATION

The standard course held at our Head Office is intended to last half a day. Bespoke courses or a course to held at your own premises will be discussed upon application

FURTHER COURSES & INFORMATION

Although Certex Training Services offers a number of standard training courses, detailed on our web site, bespoke courses related to Lifting Equipment can be produced to your requirements.

Further information can be found on our web site www.certex.co.uk/uk/training or by contacting our sales team on 0845 230 7475.
