

BASIC SAFE SLINGING AND LIFTING

AIM

The course is specifically aimed at providing an introduction to users of lifting equipment with safe techniques for slinging and lifting operations. Although a basic course the content is quite substantial and covers the following areas:

- Current Legislation
- Equipment Selection
- Safe Use of General Lifting Equipment
- Pre Use Inspection of General Lifting Equipment
- Lifting Operation Planning
- Hand Signals
- Sling Configurations

A theory test will be taken and a short practical examination to ensure safe practices are used is a major part of the course. A certificate of attendance will be issued which aids in addressing the various legislative requirements placed upon employers to ensure their employees are competent. The course includes a substantial handout for future reference.

LOCATION

The course is generally held at our Head Office at Harworth, however we are able to utilise other Certex sites around the country and also hold courses at your site if adequate facilities are available.

DURATION

The standard course held at our Head Office is intended to last 1 day. Bespoke courses or courses held at your own premises will be discussed upon application.

FURTHER COURSES & INFORMATION

Although Certex Training Services offers a number of standard training courses, detailed on our web site, bespoke courses related to Lifting Equipment can be produced to your requirements.

Further information can be found on our web site www.certex.co.uk/uk/training or by contacting our sales team on 0845 230 7475.
