

## MANAGEMENT OF LIFTING OPERATIONS

### AIM

The course is specifically aimed at providing training for those people who are responsible for the management of lifting operations, such as the Appointed Person. The course covers the following areas:

- Current Legislation
- Definitions & Terminology
- Marking of Lifting Equipment
- Storage of Lifting Equipment
- Selection of Personnel
- Selection of Cranes
- Load Estimation
- Calculating Centre of Gravity
- Load Security
- Sling Configurations
- Sling angles
- Sling Angles
- Slinging Methods
- Types of Slings
- Selection of PPE
- Planning the Lifting Operation
- Risk Assessment
- Safe Use of Slings
- Sling Choice
- Hand Signals
- Pre-use Inspection
- Optional Practical Session

A theory test will be taken and the option of a practical session to ensure safe practices are used can form part of the course. A certificate of attendance will be issued which aids in addressing the various legislative requirements placed upon employers to ensure their employees are competent. The course includes a substantial handout for future reference and workbook exercises which are to be completed during the course.

### LOCATION

The course is generally held at our Head Office at Harworth, however we are able to utilise other Certex sites around the country and also hold courses at your site if adequate facilities are available.

### DURATION

The standard course held at our Head Office is intended to last 2 days. Bespoke courses or course held at your own premises will be discussed upon application

### FURTHER COURSES & INFORMATION

Although Certex Training Services offers a number of standard training courses, detailed on our web site, bespoke courses related to Lifting Equipment can be produced to your requirements.

Further information can be found on our web site [www.certex.co.uk/training](http://www.certex.co.uk/training), by emailing [sales@certex.co.uk](mailto:sales@certex.co.uk), or by contacting our sales team on 0845 230 7475.
