

WIRE ROPE APPRECIATION

AIM

To provide delegates with an introduction to wire ropes. The course looks at different types of wire rope construction, the manufacture of wire rope, the safe use of wire rope and the current standards and legislation that apply to steel wire rope.

The course is considered suitable for those having little or no knowledge of wire rope and rope products in general, as well as, those more experienced individuals wishing to update themselves with the most up to date published standards and codes of practice.

A certificate of attendance will be issued which aids in addressing the various legislative requirements placed upon employers.

LOCATION

The course is generally held at our Head Office at Harworth, however we are able to utilise other Certex sites around the country and also hold courses at your site if adequate facilities are available.

DURATION

The standard course held at our Head Office is intended to last one half day. Bespoke courses or courses held at your own premises will be priced upon application.

FURTHER COURSES & INFORMATION

Although Certex Training Services offers a number of standard training courses, detailed on our web site, bespoke courses related to Lifting Equipment can be produced to your requirements.

Further information can be found on our web site www.certex.co.uk/uk/training or by contacting our sales team on 0845 230 7475.
