Who We Are

Certex UK is a leading provider of lifting solutions and services. With a strong history and commitment to providing a quality product with a service to match, we have established ourselves as a trusted name in the industry. Our unwavering dedication to safety, quality, and innovation has made us the go-to choice for businesses across the United Kingdom.

At Certex UK, we understand the critical importance of reliable and efficient lifting equipment for a wide range of industries. Whether it's offshore operations, construction sites, manufacturing facilities, or any other sector that requires lifting and securing solutions, we have the expertise and resources to meet your specific needs."

Global Presence

Certex (UK) belong to the business unit Lifting Solutions within Axel Johnson International. The business unit is a global player that specialise in lifting equipment, steel wire rope, height safety and services. It operates as a group of companies that supply wire rope, hoists, overhead cranes and other lifting products together with connected services.

Lifting solutions has developed rapidly. Having grown from 0 to 420 MEUR in annual sales since 2005, when the first acquisition was made. Today Lifting Solutions consist of 24 market-leading companies with 100+ service centres world-wide. Together, the companies serve clients in a wide range of industries, including oil & gas, renewable energy, shipping, automotive manufacturing, ports, fish farming, engineering, pulp and paper, mining, and steel.

Even though Lifting Solutions has a short history the companies within the group have a long history in the business and are well known and established in their local markets. Several have even been around for more than a century. Together, they possess a vast resource of specialist knowledge in lifting and steel wire rope.
