

Lifting Magnet - Walker Lifting Magnet Accessory

Product information

Very convenient for loading and unloading of horizontal machine centres and lathes
 Magnet is adjustable to suit a range of diameters and widths
 Lifting arm can be retrofitted to existing NEO magnets
 The advantages of magnetic handling
 Considerable savings in time and money
 One man operation
 More effective use of floor space
 No workpiece damage
 Improved labour conditions
 Lift magnet programme
 Permanent and electro-permanent lift magnets standard up to 5000kg capacity for flat material
 Battery lift magnets up to 5000kg capacity for flat and 2200kg for round material
 Electro (mains powered) lifting magnets for plate, rounds, structurals and bundles

Features: Magnet provided with lifting arm for turning workpieces through 90°

Safety factor: 4:1
