

## Ship Wedge model W

### Product information

Ship Wedges model W are positioned underneath a ship section during the construction or repair. They facilitate launching the vessel after the works have been completed.

- Robust; resistant to continuous heavy operating conditions.
- Can be used close to welding works.
- Low maintenance.

**Features:** Unloads in one go with maximum load.

| Part code     | Code | Capacity<br>kN/t | Min height<br>mm | Max height<br>mm | A mm | B mm | C mm | Weight<br>kg |
|---------------|------|------------------|------------------|------------------|------|------|------|--------------|
| 9098500501050 | W50  | 490.5 / 50       | 200              | 225              | 390  | 255  | 200  | 29           |
| 9098500501080 | W80  | 784.8 / 80       | 275              | 340              | 570  | 345  | 275  | 64.5         |
