

Precision Tensile Link SWLZ

Product information

Election of fittings (eye nuts, hooks, swivels, clevises, links etc.), and a robust brief case type carrying case.

Switching device

Type SWLZ is often used as a switching device; the measured load being used to actuate or interrupt other operation e.g. as an overload cut out or to maintain tension between defined limits.

SWLZ - KIT

Type SWLZ is also supplied as a 'kit' (c/w eye suspension, type SWLPC(J) display, charger and carrying case) for mast guy wire tensioning and monitoring.

Features: Alternative cable lengths.
