

Wireless Compression Load Cell - LoadSafe

Product information

The Straightpoint Wireless Compression LoadSafe (WNI). No longer hindered by troublesome and hard to maintain cables, large scale projects can be completed in a fraction of time previously required. Multiple compression loadcells can all connect wirelessly to our range of PC software via a USB dongle, to our iOS and Android app or to our SW-HHP wireless handheld display.

Maintenance and repair costs are all but eliminated due to the absence of cables and connectors, and the product's flexibility opens the door to a large number of applications in the heavy lift, energy, defence, rigging, shipping, and general transportation sectors.

Features

- Proprietary 2.4 GHz Wireless or Bluetooth options
- Accuracy of 0.1% FS
- Environmentally sealed to IP67/NEMA 6
- Stocked capacities up to 500t
- Industry leading wireless range up to 1000m or 3280ft
- Internal antennae
- ATEX & IECEx version for hazardous area zones 0, 1 & 2 available
- Battery life of 1200hrs
- Compact size
- Remote on-off

Supplied with the following as standard

- AA Batteries
- Proof test certificate
- Operator Manual
- Carry/Storage Case

Material: 17-4PH H900 Stainless Steel. Aluminium Jacket 6000 series

Temperature range: -10°C up to +50°C

Finish: Stainless Steel – Polished. Jacket Blue Anodized to BS EN 12373-1:2001 Class 10.

Safety factor: 3:1
