# Crane Manufacturers

## Overview

Certex have a long history in supplying crane OEM (original equipment manufacturers) throughout the UK and Europe.

Certex supplies high performance crane ropes manufactured by the worlds leading suppliers from its bespoke facility in Nottinghamshire and specialist units across Great Britain.

Major products and services supplied include:

- Supply of high performance crane ropes for a complete range of original equipment.
- Application advice in choosing the right rope for the equipment.
- Termination and design advice.

## Experience

Certex supplies major manufacturers throughout Europe with original ropes and components. Certex has the competency and expertise to assure correct choice of crane rope for any application.

Efficiency of production within a safe environment means that Certex is the first choice for both steel manufacturers and steel stockholders, with world class facilities and 45 locations across Europe, Certex have the resources to meet the needs of this market.

Our production staff, sales and service teams have the competency to provide the best solution to ensure that crane OEM's have the equipment and support required.

Certex delivers real savings to this sector by offering high performance solutions with great cost efficiency.
