

Recreational Products

Certex UK has a specialist unit supplying fibre, steel and combination rope assemblies for all types of playground, park and recreational use. This has been established for more than 20 years and supplies some of the leading playground retailers in the UK. Certex has developed one of the largest supply chains in Europe with a network of sales, service and training facilities in over 13 European countries.

Products created including but not limited to:

- Climbing Nets
- Tunnel Nets
- Bridges
- Suspension Bridges
- Custom Playground and net rope designs
- Single Ropes
- Rope Ladders
- Foot ropes

Swing handles
Seated Swings
Combination ropes with different fittings

Services

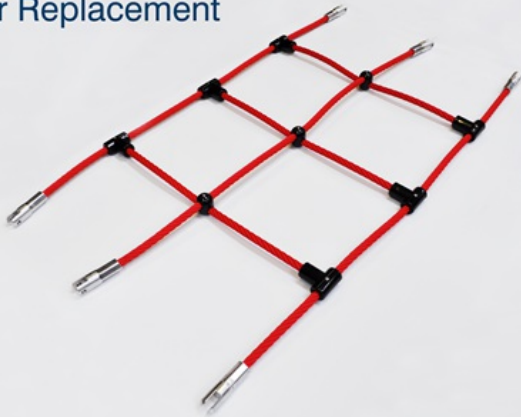

Repairs and Replacement

Before Replacement

CERTEX

After Replacement

CERTEX

We can see in the above example the before and after of a combination rope that has required replacement in its entirety. We can create unique pieces to fit your bespoke equipment even where there is no original replacement parts.

You can either:

- send items for to us for repair or replacement (to match sizing and materials used).
- we can inspect your current recreational grounds and advise on which parts require refurbishment/replacement.

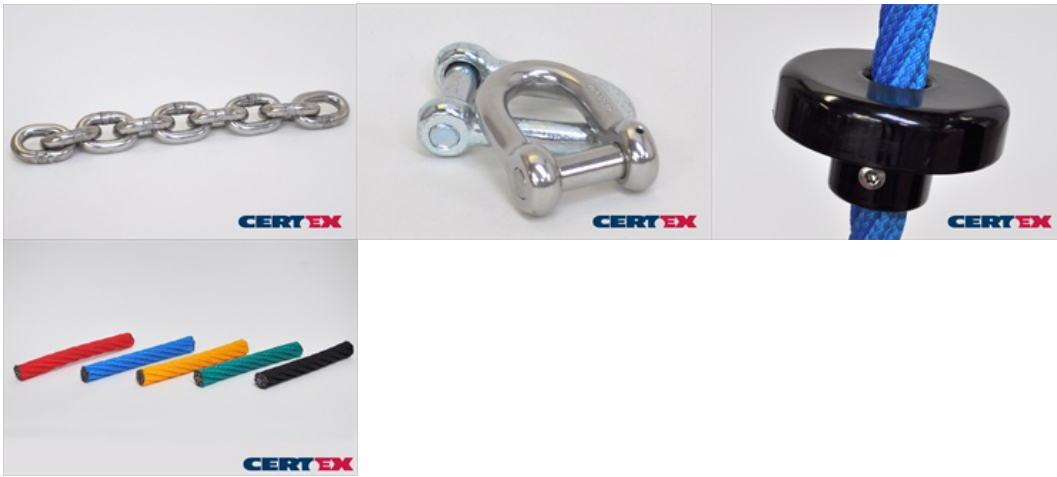

Inspections

If you have recently installed a new playground or have an existing playground which requires inspection we can inspect and advise on any changes. We have a dedicated team who can inspect new and existing recreation/playground equipment. Our qualified experts are certified and achieved with both OFQUAL - The Office of Qualifications and Examinations Regulation and RosPA - Royal Society for the Prevention of Accidents. Further they also have LEEA - Lifting Equipment Engineers Association qualifications.
