

We're hiring

**Inspection
Engineer**

Inspection Technician (Renewables - Wind)

Certex are looking for experienced inspection technicians to fulfil short to medium term contract positions during the peak season, starting from March. Certex will consider direct employment or hiring of subcontractors provided that the candidate meets the minimum required qualifications & experience.

During your tenure with Certex UK you will be part of our Renewables Division, which is a part of the largest lifting supply chain in Europe, with a network of sales, service and training facilities consisting of 25 market leading companies with 67 service centres throughout Europe.

Prior experience as competent inspection technician is a must (for LOLER & PUWER regulations).

REQUIRED QUALIFICATIONS

- GWO Accreditation:
 - Working at Height
 - Offshore Survival
 - Manual Handling
 - Fire Awareness
 - First aid
- OG UK Medical Certificate with Chester Step Test

- Avanti Lift Maintenance/Installation/Inspection Tickets for some or all of the models:
 - Dolphin
 - Shark (& Shark L)
 - XL
 - XL02

- Portable Fire Extinguisher Service & Inspection

DESIREABLE (but not essential):

LEEA 1 & 2 Entrance + Additional LEEA Diplomas

For more information please email a C.V. and short Covering letter to: hr@certex.co.uk, or for further information please call 03336001120 .
