

Crosby

Engineering and manufacturing excellence without compromise

Those who know the name “Crosby” know the significance the name holds within the rigging and lifting industry. It is a name that has been trusted for over 130 years, is rooted in tradition, and drives the industry-changing innovations of tomorrow. As the world’s leading manufacturer for rigging, lifting, and material handling applications, Crosby delivers a diverse portfolio of products engineered to exceed the toughest demands of any industry, including land-based and offshore energy, construction and infrastructure, cargo handling and towing, marine, mining, and transportation. Our products of uncompromising quality include hooks, Red Pin® shackles, hoist rings, master links, lifting clamps, slings, turnbuckles, snatch blocks, crane blocks, sheaves, and a host of other custom engineered solutions: the most comprehensive portfolio in the industry. When you choose Crosby, you are guaranteed more than superior products—you are guaranteed the quality assurance that comes with comprehensive risk management, world-class training programs, and a customer service team committed to exceeding end user, market, industry, and worldwide expectations. At Crosby, it’s not just about lifting products—it’s about working with a trusted partner who is invested in YOUR success. We look forward to providing you the resources you need to lead with confidence and without compromise in a superbly-engineered world.
