Competency

Within the Certex ethos we educate and train our staff to a level of competency which exceeds the industry requirements. Certex are accredited and associated with [LEEA](#) and also work closely with all major manufacturers to meet and exceed the accepted standards.

The Typical Qualification of a Certex Renewables Engineer are:

- [GWO Certifications](#) (Global Wind Organisation)
- [LEEA](#) Lifting Gear General and Part One (The Lifting Equipment Engineers Association)
- Wire Rope Examiners Course
- PSSR Training (Personal Safety and Social Responsibilities)
- PFPE Training (Personal Fall Protection Equipment)
- Lift Training
- Fall Arrest Training
- Fire Extinguisher Training
- Slinger & Banksman

Furthermore Certex Renewables Engineers are trained by the following manufacturers:

- Granada Cranes
- ICM
- Latchways
- Power Climber
- Tractel Equipment
