Product information

MCW Professional is a high capacity crane scale designed for use on cranes with a capacity of up to 100 tonnes. It is a robust and reliable scale that can be used in a variety of applications, including lifting, moving and positioning heavy loads. The scale is made of high quality steel and is designed to withstand the most demanding conditions. It is also easy to install and use, and it provides accurate weight readings. The scale is available in a range of capacities, from 10 to 100 tonnes, and it can be configured to suit your specific requirements. It is a essential piece of equipment for any crane operator who needs to lift heavy loads safely and accurately.
