Product information

TQ12 Xtra is a high performance fibre rope designed for use in lifting applications. It offers a range of characteristics, including high strength and low stretch, which makes it ideal for use in applications where high loads and long service lifetimes are required. The rope is also designed to be easy to handle and store, making it a popular choice for many users. The rope is available in a range of diameters and lengths, and is suitable for use in a wide range of applications. The rope is also designed to be resistant to wear and tear, which helps to increase its service lifetime over conventional ropes.
