Harness IGNITE PROTON Skylotec

Product information

 SKYLOTEC

Skylotec Ignite Proton is a full body harness designed for use in the construction and industrial sectors. It is a high quality, lightweight and comfortable harness that meets all the requirements of EN 361 and EN 12008. The harness is made from high strength, lightweight and comfortable materials. It features a full range of adjustment points to ensure a perfect fit. The harness is also equipped with a range of safety features, including a shock absorber, a fall arrest system and a rescue system. The harness is also equipped with a range of accessories, including a lanyard, a carabiner and a tool bag. The harness is also equipped with a range of safety features, including a shock absorber, a fall arrest system and a rescue system. The harness is also equipped with a range of accessories, including a lanyard, a carabiner and a tool bag.
