Product information

The 6 strand eyes are made from high tensile steel, heat treated by a proprietary process to give them a high degree of strength and resistance to fatigue. The eyes are designed to be used in a variety of applications, including as a part of a lifting system. They are available in a range of sizes, from 1/2 inch to 2 inches. The eyes are made to the standards of the Crosby Corporation, which is a leading manufacturer of lifting equipment. The eyes are made to the standards of the Crosby Corporation, which is a leading manufacturer of lifting equipment.
