Product information

Electric rope hoist MINIFOR™ TR125 SY for steel applications. Special design for single and double hook lifting. Geometrically rigid in standard rope. Minifor TR125 SY is a compact and powerful electric rope hoist. It is designed for single and double hook lifting. The hoist is made of high quality steel and is painted in a durable powder coat. It is suitable for use in industrial environments. The hoist is equipped with a safety device that prevents the load from falling. The hoist is also equipped with a limit switch that stops the hoist at the top and bottom of the travel. The hoist is easy to install and maintain. It is a reliable and safe lifting solution for your application.

FILTERS & SUBCATEGORIES

* Winch without rope.
