

Cablegrip Open

General: Open Ended Cablegrip ideal for joining two cables to form a continuous loop.
Typical application: replacement of elevator cables, where the old cable would be attached to the new one, and the cable then fed round with ease.

Design: Pleated of double wire ropes.

Material: Steel wire rope - Galvanized.

Note: Substantial safety ratios have been applied to all quoted minimum-breaking strengths. Additional safety factors, determined by application, should be applied. CERTEX recommends a minimum saf
