Product information

Ropetex 55 is a high performance steel wire rope with a high breaking force and a long service life. It is designed for use in lifting applications where high strength and durability are required. The rope is made of high quality steel and is available in a range of diameters and lengths. It is suitable for use in a wide range of environments and is resistant to corrosion and wear. The rope is also easy to handle and install, making it a popular choice for many applications.
