Product information

Closed Swage Socket Crosby S-502 is a high quality, heavy duty, closed swage socket, designed for use with Crosby S-502 wire rope. It is made from high strength steel and is available in a range of sizes to suit different wire rope diameters. The socket is designed to provide a secure, reliable connection between the wire rope and the lifting equipment. It is easy to install and remove, and is suitable for use in a wide range of applications. For more information, please visit our website or contact our sales team.
