## Mining industry

For over 50 years, Certex has supplied steel wire rope and lifting gear. Today we are one of the leading suppliers and are present in more than 40 locations around Europe.

We have extensive experience in the mining industry. Regardless if you demand mining ropes, lifting equipment, steel wire rope inductive MRI inspection or other services, we have the skills required. We always strive to give you the best solution for your needs. The fact that we have delivered products and steel wire rope to the mining industry for more than 50 years has given us the knowledge and experience about which products are most suitable.
