and services

Certex

A Global Presence with Local Support

Certex UK is a leading provider of lifting solutions and services. With a strong history and commitment to providing a quality product with a service to match, we have established ourselves as a trusted name in the industry. Our unwavering dedication to safety, quality, and innovation has made us the go-to choice for businesses across the Globe.

Certex (UK) belong to the business unit Lifting Solutions within Axel Johnson International. The business unit is a global player that specialise in lifting equipment, steel wire rope, height safety and services. It operates as a group of companies that supply wire rope, hoists, overhead cranes and other lifting products together with connected services.

Certex therefore has the capabilities to access a global supply chain, allowing rapid response to customer requests and delivery of solutions of all sizes, from local clients to large global organisations.

At Certex UK, we understand the critical importance of reliable and efficient lifting equipment for a wide range of industries. Whether it's offshore operations, construction sites, manufacturing facilities, or any other sector that requires lifting and securing solutions, we have the expertise and resources to meet your specific needs.

With depots strategically located across the UK, we can provide tailored support to all customers in a wide range of applications and environments.

Partnerships

Supplier Partner Network

Our supplier partner network spans globally, ensuring that we can provide localised support and services wherever our clients operate. This extensive network includes partnerships with industry leaders who share our commitment to quality, safety, and innovation.

By leveraging the strengths of our partners, we can offer a comprehensive range of products and services, including:

High-Quality Products: Our portfolio includes a wide selection of steel wire ropes, polyester ropes, slings, and lifting equipment. Each product is meticulously selected to ensure it meets the highest standards of quality and safety.

Innovative Solutions: We pride ourselves on our ability to provide innovative solutions to complex lifting challenges. Our strategic partnerships enable us to stay at the forefront of technological advancements and industry best practices.

Comprehensive Services: Beyond supplying products, we offer a complete range of services, including repair and maintenance, inspection and testing, contract hire, training, and certification management. Our goal is to provide end-to-end solutions that enhance the safety and efficiency of our clients' operations.

Our strategic partnerships allow us to cater to a wide range of industries, including offshore, wind

power, shipping, transportation, ports, fish farming, engineering, pulp and paper, mining, and steel. We understand that each industry has unique requirements, and we work closely with our partners to develop tailored solutions that address specific needs.

Our Own Brands: Ropetex and Powertex

Ropetex is our brand for steel wire ropes and steel wire rope lubricants and Powertex is our own brand for lifting equipment, lashing products and fall protection products.

Both Ropetex and Powertex offer you high-quality and cost-effective products which are suitable for daily use in many sectors including industrial, construction, processing industry, offshore, logistics and many more.

By leveraging the strengths of our partners, we can offer a comprehensive range of products and services...

| ISO 17020:2012 | |

Certex UK is a part of Axel Johnson International where sustainability is a fundamental part and prerequisite of the group's business model. Every day our products drive, secure and power thousands of applications essential for society to function.

CERTEX (UK)

Commitment to Sustainability

Driving Sustainable Transformation

At Certex UK we believe that sustainability is the key to secure our future as a company. Guided by our core values and in combination with our Lifting KnowHow, we have the conditions to drive sustainable transformation in our industry.

By teaming up with suppliers who share our values and meet our sustainability standards, we make sure all links in the chain share the same goals, a sustainable supply chain. We continuously improve the quality and safety level of our products and strive for a supply chain that fulfils our requirements in our supplier Code of Conduct

Sustainability is integrated in our value chain with the focus on offering safe products and solutions to meet customer's quality expectations and to improve their sustainability performance.

At Axel Johnson International, we recognize that society needs to be more sustainable, and by helping our customers find optimal technical solutions, we contribute to a more sustainable development. With customers in focus, the group's sustainability work will strengthen our existing business and drive the sustainability transformation in our industry.
