

TR34 – IOSH WORKING SAFELY – 1 DAY

COURSE AIM

The aim of this course is to ensure that all delegates are equipped with the knowledge to meet the government's guidelines for introductory health and safety training and to conform to the HSE's Passport Scheme syllabus. This course is suitable for all employees from any industry sector who have no supervisory or managerial responsibilities.

Following successful completion of the course, the delegate will be able to understand responsibilities associated with handling resources, assessing risks and how safety can be improved in the workplace.

Although a basic course, the content is quite substantial and covers the following areas: -

- Defining Hazard and risk
- Identifying Common Hazards
- Improving Safety Performance
- Introducing Working Safely
- Protecting Our Environment

Each course delegate will be expected to complete a multiple choice questionnaire and hazard spotting exercise. If successful, an IOSH accredited certificate will be issued. This helps the Employer to address certain legal requirements by being able to demonstrate employee competency. A detailed course handout is also provided for future reference.

DURATION

The standard course is intended to last for 1 day.

LOCATION

The course is generally held at our Head Office at Harworth, however we are also able to utilise other Certex locations, or hold courses at Client premises if adequate facilities are available.

WHAT DELEGATES WILL NEED TO BRING

Each delegate is required to produce photographic ID on the first day of the course. Failure to do so will result in the delegate being unable to attend.

As this course is held entirely in a classroom environment no PPE is required and all course paperwork is supplied.

FURTHER COURSES & INFORMATION

Certex UK offers a range of standard training courses as detailed on our web site and bespoke training courses can be tailored to suit your specific needs. Many of our standard courses are [LEEA](#) certified. For further information or to discuss your requirements in more detail, please contact our Training Team on +44 (0) 1302 756777.
